Re: Professional Commercial Collections

Dear Rich,

As a very busy Credit Manager of a worldwide pharmaceuticals company, I don't normally take the time to comment on the services of an outside vendor, but I am making an exception in this case.

We want you to know, that US Credit Adjustment Corporation, is our preferred collection partner. The USCAC team has assisted us in recovery of some very delinquent debts and has exceeded all our expectations. They have not only done a great job of collecting our delinquent accounts, but they have also helped us in other ways, such as helping to make improvements to our Credit Application.

Thanks so much for your excellent collection results and wonderful Customer Service. I would highly recommend USCAC to any company that isn't currently getting the results and service they deserve.

Sincerely,
